Chemistry Summer Undergraduate Research Fellowship (Chem-SURF)

http://www.chem.uci.edu/reu

The Chem-SURF program provides research opportunities for undergraduates to become fully immersed in challenging, cutting-edge, exciting, and transformative research projects in the STEM disciplines including Chemical Biology, Chemical Engineering, Materials Science, Pharmaceutical Sciences, Nanoscience, and Atmospheric, Computational, Inorganic, Organic, Polymer, Surface, and Theoretical Chemistry.

Benefits Include:
- $4,500 Stipend
- Free on-campus housing
- Travel allowance
- Chemistry seminars
- Graduate school preparations
- Faculty mentoring
- Local industry field trips
- Library and physical fitness privileges
- Cultural and social activities

Who Should Apply?
Applicants should be highly motivated and high-achieving STEM majors with sophomore, junior, or senior standing by the start of the REU Chem-SURF program. They must be U.S. citizens or permanent residents, and have health insurance coverage. This program is committed to promoting diversity in the fields of science. Women, underrepresented minorities, individuals from economically and socially disadvantaged backgrounds, persons with disabilities, and veterans of the U.S. Armed Services are especially encouraged to apply.
