GSK Chemistry: Engagement Session and Career Q&A Session
June 29th, 2022 · 3:30–4:30pm · Natural Science II Room 4112

Interested in a career industry? Do you want to know about the transition from academia to industry? Curious about the science we do at GSK? Do you want to know why we think GSK Chemistry is a great place to be yourself and do the science at the heart of why we love our jobs?

Please join us for a one hour informal session intended for you to ask us anything about career trajectory in industry or anything we may have missed in the earlier GSK Chemistry seminar. All are welcome to join this session so you can get to know us and we can get to know you better!

Gregg Barcan, Team Leader, Drug Substance Development
Nicole Godfrey, Investigator, Medicinal Chemistry

Why GSK

GlaxoSmithKline is a global research-based pharmaceutical company that combines both individual talent and technical resources to create a platform for the delivery of strong growth in a rapidly changing healthcare market. GlaxoSmithKline is recognized internationally for its innovative approach to drug discovery and development. Our success is built on the collaboration of multi-disciplinary teams composed of a diverse group of scientists sharing their ideas and expertise to innovate and develop life-changing therapies. We are seeking passionate chemists to join us in our mission to improve the quality of human life by enabling people to do more, feel better, and live longer.
